Department of CSE, CUET

Name Of the Project

”The Scholar’s Corner”

Objectives

We want to establish a website that serves a portion of community who are interested in going abroad for higher studies, research or other kind of education purpose by –

- i. Providing a detailed descriptive way of getting admitted or recieved for research projects in universities, colleges, and technical institutions that provides opportunity for learners.
- ii. Improving skills such as essay writting needed by various institution to be accepted.
- iii. Offering real time instances of the process of getting scholarships from institutions.
- iv. Inroducing community platform for helping each other by providing uni-related queries.
- v. Giving expert’s sugession about it.

Description

People want to do research or study abroad to enhance their career. So a website that helps with information about the institutions, the opprptunities or scholarships they provides, requirement skills, application process, passport-visa and other formalities, accomodation and other facilities, and other opportunitiy related things would be much helpful. Sugessions based on the degrees, skillsets of a student where he/she should try in a same place is one of the necessity in our society.

The Idea : Scope and Collaboration

Our platform will have many functionalities such as descriptive data, forums, Q/A section, blog by experts, essay correction and finally some real world examples with the good authority links. There will be feedback section and reviews from people who have recieved helpful information from here.

The Website : Features and Functionality

Our website features contents based on the processes by which one can find a suitable research or scholarship offers from favourable institution.

A chat system where anyone can ask their needs. And fourm where users can post their problems, thoughts and moderators or experts can answer them.

Furthermore, a blog section where expert people can give advice and suggestions. And a basic Q/A section where some answers of frequently asked questions and answers are available here. Modern universities require some kind of special essay writing and we can give good suggestions about it.

Development Platforms

The frameworks and language platforms we are supposed to use –

- HTML
- CSS
- JAVASCRIPT
- PHP
- SQL
- FLUTTER , etc

Conclusion

A goal without a plan is just a ship without a radar. One of the motives of our platform is to help those students mainly from undergrad level who wants to advance their career in abroad. Our next plan for the website is to provide some courses and connect the experts with students more and in addition of subscription and AdSense in some pages.
